

## PhDone! Congratulations Leighton King

June 7, 2024 | Michelle Achermann

**Leighton King has successfully defended her PhD thesis "Lessons from the past: Exploring invertebrate assemblages of Lake Victoria over decadal to millennial timescales to unravel anthropogenic impacts" on 3rd June 2024. Congratulations!**

Leighton King has contributed to the goals of the Sinergia project "[Digging deep into Lake Victoria's past](#)" by intensively studying the remains of plankton and other organisms in sediment cores. Her publication "[Anthropogenic Eutrophication drives major food web changes in Mwanza Gulf, Lake Victoria](#)" has been published in the Ecosystems journal.
