

Juliane Hollender

OrcID: 0000-0002-4660-274X, ResearcherID: A-2145-2014

Eawag, Environmental Chemistry, Überlandstr. 133, 8600 Dübendorf, Switzerland and Institute of Biogeochemistry and Pollutant Dynamics, D-USYS, ETHZ, Zurich, Switzerland,
Phone: +41 58765 5493, E-mail: juliane.hollender@eawag.ch

Professional experience

- since 2005 **Eawag, Swiss Federal Institute of Aquatic Science & Technology**, Head of department of Environmental Chemistry
- since 2010 **ETH Zürich**, Switzerland, Adjunct Professor in the Department of Environmental Systems Science
- since 2007 **ETH Zürich**, Switzerland, Lecturer in the Department of Environmental Systems Sciences
- 2006 - 2014 **RWTH Aachen**, Germany, Adjunct Professor
- 1994 - 2005 **RWTH Aachen**, Germany, Institute of Hygiene and Environmental Medicine, Senior Research Assistant, Group Leader and Lecturer (5/1995 – 2/1996 and 2–8/1998 on maternity and parental leave, from 1996 part time)
- 1991-1994 **Technical University of Berlin**, Germany, Faculty of Environmental Engineering, PhD student
- 1990 **University of Freiburg**, Germany, Biochemistry Division, Research Assistant

Education

- 2002 **RWTH Aachen, Germany, habilitation** with *Venia legendi* in Environmental Hygiene and Ecological Chemistry, Thesis: "Development of sensitive methods for the environmental and biological monitoring of organic compounds and their metabolites"
- 1994 **Technical University of Berlin, Germany, Doctor in Environmental Engineering**, Thesis: „Microbial degradation of chloro- and methylphenols in mixture under aerobic and denitrifying conditions - regulation and interactions in a mixed culture“, with distinction
- 1990 **University of Freiburg i.Br. Germany, Diploma in Chemistry**, specialization in biochemistry, with distinction
- 1987 **University of Bonn, Germany**, Intermediate examination in chemistry

Scholarships, Awards

- 2020 Super Reviewer award of the journal *Environmental Science and Technology*
- 2019-2021 Highly cited scientist in the field of environment and ecology (web of science, Clavirate)
- 2017 Second runner-up feature article of the journal *Environmental Science and Technology* for Hollender, Schymanski, Singer, Ferguson; Nontarget Screening with High Resolution Mass Spectrometry in the Environment: Ready to Go?" Environ. Sci. Technol. 2017 51, 11505–11512.

- 2010 Best paper award of the journal *Environmental Science and Technology* for Helbling, Hollender, Kohler, Singer, Fenner; High-throughput identification of microbial transformation products of organic micropollutants. Environ. Sci. Technol. 44: 6621-6627.
- 2010 Excellence in Review award of the journal *Environmental Science and Technology*
- 1999 - 2002 Scholarship of the *Deutsche Bundesstiftung Umwelt* (German National Environmental Foundation) for the habilitation
- 1991 - 1992 Scholarship of the Senate of Berlin for the PhD project
- 1991 - 1993 Scholarship of the *Studienstiftung des Deutschen Volkes* (German National Academic Foundation) for the PhD project
- 1991 Adolf-Steinhofer Award of the faculty of Chemistry and Pharmacy of University of Freiburg for the diploma thesis
- 1985 - 1990 Scholarship of the *Studienstiftung des Deutschen Volkes* for graduate studies

Important student awards

- 2021 ETH medal for the PhD thesis of Barbara Günthardt
- 2020 ETH medal for the PhD thesis of Jonas Mechelke
- 2015 ETH medal and Otto Jaag water protection prize for the PhD thesis of Christoph Moschet
- 2015 Award of the Setac GLB for the PhD thesis of Christoph Moschet
- 2013 Paul Crutzen award of the German Chemical Society, Division Environmental Chemistry and Toxicology for Christoph Moschet for the publication "Multi-Level Approach for the Integrated Assessment of Polar Organic Micropollutants in an International Lake Catchment: The Example of Lake Constance", Environ. Sci. Technol. 47: 7028-7036
- 2012 ETH medal for the PhD thesis of Andreas Kretschmann
- 2011 Award of the German Chemical Society, Division Environmental Chemistry and Toxicology for the publication for Andreas Kretschmann for the publication "Toxicokinetic Model Describing Bioconcentration and Biotransformation of Diazinon in Daphnia magna", Environ. Sci Technol. 45: 4995-5002
- 2009 First prize in a Young Scientist Competition of the international conference Xenowac of the COST action 636 for Lubomira Kovalova for the publication "Challenge of High Polarity and Low Concentrations in Analysis of Polar Cytostatics and Metabolites in Wastewater Samples by Hydrophilic Interaction Chromatography / Tandem Mass Spectrometry", J. Chromatogr. 1216: 1100-08

Membership of scientific societies

- German Chemical Society (GDCh), Division Analytical Chemistry, Environmental Chemistry and Ecotoxicology, Water Chemical Society
- Society of Environmental Toxicology and Chemistry (SETAC)
- Swiss Chemical Society (SCS)
- Swiss Metabolomics Society

- Swiss Group for Mass Spectrometry (SGMS)

Membership of scientific research groups and committees

- External Scientific Advisory Group of Institute of Environmental Assessment and Water Research (IDÆA), Barcelona, Spain, since 2019
- Member of the research council of the Swiss National Science Foundation, 2014-present
- Member of steering committee of the network of reference laboratories, research centres and related organisations for monitoring of emerging environmental substances (NORMAN), 2014 – present, Member of NORMAN working groups prioritization & effect directed analysis since 2009-present, Leader of the cross-working group activity nontarget analysis since 2015
- Member of advisory board “Environment» for Bundesanstalt für Materialforschung und – prüfung, Germany, 2015-2019
- Management Committee Cost Action 636 “Xenobiotica in the Urban Watercycle”, 2006-2009
- Advisory board of the Nireas International Water Research Center, Cyprus, since 2012
- Strategic advisory group Groundwater Monitoring Switzerland, working group “Parameter”, 2007 – present
- Member of project group “Diffuse pollution” of the Swiss Federal Offices for the Environment , 2011-2015
- Search Committee for implementation of transdisciplinary sustainability research at the University of Lüneburg, Germany, 2009
- Scientific board member of the European Marie Curie Early stage training site “AQUAbase”, 2004-2007

Review activities

- Advisory board Journal “Environmental Science & Technology Letters”, since 2020
- Guest editor for special issues “Emerging Contaminants” in Journal of Hazard Materials, 2016, 2018
- Editorial board Environmental Toxicology and Chemistry, 2012-2014
- Advisory board Journal „Environmental Sciences Europe“, since 2011
- Associated Editor Journal “Grundwasser”, 2010-2017
- Member of the peer review committee of water research institute KWR, the Netherlands, 2014
- Scientific evaluation committee of the Priority program “Biogeochemical Interfaces in Soil” of the German Research Foundation (SPP 1315), 2006 - 2014
- Reviewer for Journals in the field of Environmental Sciences and Analytical Chemistry: e.g. Environ. Sci. Technol., Wat. Res., J. Chromatogr. A, Anal. Bioanal. Chem., Chemosphere, Anal Chem, Environ. Poll., Sci. Tot. Environ., Env. Intern.
- Reviewer for Research foundations: German Research Foundation (DFG), Deutsche Bundesstiftung Umwelt (DBU), Deutsches Bundesministerium für Bildung und Forschung (BMBF), Ministère de la Recherche, Luxemburg, National Science Foundation US (NSF), Agence National de la Recherche France (ANR), Swedish Research council for Environment, Agricultural Sciences and Spatial Planning (FORMAS)

Organisation of conferences and workshops

- 2022 Co-organizer of SETAC focused topic meeting “Non-Target Analysis for Environmental Assessment”, May, Durham, US
- 2017 Organization of satellite event “Suspect and Non-target Screening” of the EuCheMS International Conference on Chemistry and the Environment, Oslo, Norway
- 2016 Main Organizer of the international conference: Non-target screening of organic chemicals for a comprehensive environmental risk assessment - NonTarget2016, Monte Verità, Switzerland
- 2014 Organisation of Norman Non-target collaborative trial workshop and Non-target screening workshop, Eawag, Dübendorf, Switzerland
- 2014 Co-chair of the scientific committee of the SETAC Europe conference in Basel, Switzerland
- 2013 Organisational and scientific committee of the international IWA specialist conference Micropol and Ecohazard 2013, Zurich, Switzerland
- 2011 Scientific committee of the EuCheMS International Conference on Chemistry and the Environment, Zürich, Switzerland, Organization of satellite event “Non-target analysis”
- 2011 Scientific committee of the international IWA specialist conference Micropol and Ecohazard 2011, Sydney, Australia
- 2010 Co-Organizer of the international conference “Environmental transformation of organic compounds: Towards a joint perspective on the importance of transformation products as environmental contaminants – TransCon2010”, Monte Verità, Switzerland
- 2010, 2016 Scientific committee of the SETAC GLB conference, Dessau and Tübingen, Germany
- Since 2004 Leader of sessions in environmental chemistry at various SETAC Europe conferences as well as SETAC GLB conferences
- 2009 Scientific committee and organizing committee of the international conference “Xenobiotics in the Urban Watercycle”, March 2009, Cyprus
- 2008 Host for workgroup meetings of the Cost action 636 “Xenobiotics in the Urban Watercycle”, Dübendorf, Switzerland
- 2008 Scientific committee of the international conference on the redevelopment of manufactured gas plants (MGP), Dresden, Germany
- 2007 Scientific committee of the workshop “Emerging contaminants in soil”, organized by the Swiss Federal Offices for Environment, Bern, Switzerland
- 2006,10,20 Leader and lecturer in the PEAK course (practice-oriented Eawag course) “Chemical environmental analytics: concepts and methods”
- 2004 Scientific committee and organizing committee of the joint annual meeting of SETAC GLB and GDCh Division Environmental Chemistry and Ecotoxicology, Aachen, Germany
- 2002 Organisational committee of the workshop “Gender and Science” at the RWTH Aachen, leading of one workshop

Current main research topics

- Fate and behavior of organic contaminants in natural and engineered environments
- Organic trace analytics (identification of transformation products, non-target screening using LC-HRMS)
- Bioaccumulation and biological transformation of organic compounds in aquatic organisms
- Linking of exposure and effects of organic pollutants

50. Hollender, J. Non-target screening by liquid chromatography coupled to high resolution mass spectrometry - Current Applications and Future Perspectives, introducing lecture at the organized workshop Satellite Event on Non-target Analysis at the ICCE conference, September 2011, Zürich, Switzerland.
49. Hollender, J. From target to non-target screening of micropollutants in the aquatic environment by HPLC combined with high resolution mass spectrometry, invited lecture at the National Research Centre for Environmental Toxicology, 15. July 2011, Brisbane, Australia.
48. Hollender, J., F. Dorusch, K. Fenner, D. Helbling, S. Huntscha, S. Kern, M. Krauss, P. Longrée, H. Singer. To what extent does LC-high resolution MS help to detect emerging polar contaminants in the aquatic environment? Micropol & Ecohazard conference 10.-13. July 2011, Sydney, Australia
47. Hollender, J. From target to non-target screening of micropollutants in the aquatic environment by HPLC combined with high resolution mass spectrometry, invited lecture at the Busan University, 7. July 2011, South Korea.
46. Hollender, J. From target to non-target screening of micropollutants in the aquatic environment by HPLC combined with high resolution mass spectrometry. Joint Swiss Korean workshop at the Gwangju Institute of Science and Technology, 5. July 2011, South Korea.
45. Hollender, J. Beurteilung von organischen Mikroverunreinigungen aus kommunalem Abwasser: Priorisierung, Monitoring, Bewertung, invited lecture at the Cercleau Tagung „Untersuchung der Fließgewässer in der Schweiz“, 16. June 2011, Rapperswil, Schweiz.
44. Huntscha, S., Rodriguez Velosa, D., Hollender, J. Tracing Micropollutants during Riverbank Filtration under Restored and Non-Restored Conditions at the River Thur, Setac Annual Meeting, 15-19 May 2011, Milano, Italy.
43. Hollender, J. Formation and fate of transformation products in aquatic waterbodies: How much do they contribute to the contamination with organic pollutants? invited lecture at the Technical University of Berlin, 24. January 2011, Germany.
42. Hollender, J. Target and Non-target screeninig of micropollutants and their transformation products in the aquatic environment by high resolution mass spectrometry, invited keynote lecture at the Nato workshop Characterisation of hazardous chemical contamination - from environmental chemistry and toxicology to risk assessment, 23.-26. September 2010, Dubrovnik, Croatia.
41. Hollender, J., Baumgartner, R., K. Fenner, D. Helbling, S. Huntscha S. Kern, P. Longrée, H. Singer. Transformation product (TP) formation and fate in the field: How important are transformation products for the overall exposure? keynote lecture at the international conference TransCon2010, 13.-18. September 2010, Monte Verità, Switzerland.
40. Hollender, J. Identification and quantification of transformation products in the aquatic environment by high resolution mass spectrometry, inivited lecture for the working group Environmental monitoring of the German German Chemical Society, 30. June 2010, Frankfurt, Germany.
39. Hollender, J. Polar organic micropollutants in the water cycle, invited lecture at the technical University of Lausanne (EPFL), 15. March 2010, Switzerland.
38. Hollender, J., K. Fenner, S. Kern, P. Longrée, H. Singer. Identification and quantification of transformation products in the aquatic environment by high resolution mass spectrometry. Keynote lecture at the Norman Workshop on Mixtures and Metabolites of Chemicals of Emerging Concern,

19. November 2009, VU University, Amsterdam, The Netherlands.
37. Hollender, J., K. Fenner, S. Kern, H. Singer. High resolution mass spectrometry as a tool to unravel the relevance of transformation products in the environment, EmCon 2009, August 2009, Fort Collins, USA.
36. Hollender, J. Kontinuierliche Entfernung von Spurenstoffen aus Abwasser mit Ozon: Vorstellung einer Pilotstudie und Auswahl biologischer und chemischer Methoden zur Beurteilung der Eliminationseffizienz, invited lecture at the colloquium of the Berlin Centre of Competence for Water, 30. June 2009, Berlin, Germany.
35. Hollender, J. Spurenstoffe eliminieren: Erfolgskontrolle. Eawag Infotag Anthropogene Spurenstoffe im Wasser: Effekte - Risiken - Massnahmen, 23. Juni 2009, Eawag, Dübendorf, Switzerland.
34. Hollender J., E. Gansner, M. Koch, S. Koepke, M. Krauss, C.S. McArdell,, C. Ort, P. H. Singer, U. von Gunten, H. Siegrist, S.G. Zimmermann, B.I. Escher. Elimination of organic micropollutants in a municipal nutrient removal plant upgraded with a full scale post-ozonation followed by sand filtration, International Water Association (IWA) Micropol and Ecohazard, 8.-10. June 2009, San Francisco, CA, USA.
33. Hollender, J. Occurrence and analytics of NSO-heterocyclic compounds in groundwater of contaminated sites - state of the art and open questions. Invited keynote lecture at the workshop "Fate of NSO-heterocyclic PAHs and phenols in the subsurface – analysis, transport and degradation" of the German research foundation, 26.-28.05.2009, Meissen, Germany.
32. Hollender, J., B. Escher, S. Koepke, M. Krauss, C.S. McArdell, Ch. Ort, H. Siegrist, H. Singer, M. Suter, U. von Gunten, S.G. Zimmermann. Elimination of organic micropollutants in a full scale wastewater treatment plant using ozonation, XENOWAC, International Conference on Xenobiotics in the Urban Water Cycle, March 2009, Paphos, Cyprus.
31. Hollender J. Polar organic micropollutants in the aquatic watercycle: occurrence, behaviour, elimination, Invited lecture at the institutional colloquium, University of Applied Sciences Northwestern Switzerland, 12.01.2009, Muttenz, Schweiz.
30. Hollender J. Polare organische Mikroschadstoffe im Wasserkreislauf: Vorkommen, Verhalten, Eliminationsstrategien, Invited lecture at the institutional colloquium, Universität Bayreuth, 06.11.2008, Bayreuth, Germany.
29. Hollender J., M. Krauss. Analysis of nitrosamines in aqueous environmental samples using high resolution LC-MS, Meeting Cost Action 636, October 2008, Novi Sad, Serbia.
28. Hollender, J., B. Escher, S. Koepke, M. Krauss, C.S. McArdell, Ch. Ort, H. Siegrist, H. Singer, M. Suter, U. von Gunten, S.G. Zimmermann. Elimination of organic micropollutants in a full scale wastewater treatment plant using ozonation, Annual meeting of the GDCh Environmental Chemistry and Ecotoxicology Division and SETAC GLB, September 2008, Frankfurt, Germany.
27. Hollender J. Polare organische Mikroschadstoffe im Wasserkreislauf: Vorkommen, Verhalten, Eliminationsstrategien, Invited lecture at the institutional colloquium, Universität Trier, 16.06.2008 Trier, Germany.
26. Reineke A.-K., J. Blotevogel, T. Held, J. Hollender. NSO-heterocyclic compounds in tar oil contaminated groundwater – Does natural attenuation take place? Invited lecture at the International conference on the redevelopment of manufactured gas plants (MGP), 04.-06.03.2008, Dresden, Germany.
25. Hollender J. Identification of micropollutants and their metabolites in environmental water samples using liquid chromatography-linear iontrap-orbitrap hybrid mass spectrometry, Workshop Cost

- Action 636, September 2007, Santiago de Compostella, Spain.
24. Hollender J., H. Singer, F. Fenner. Opportunities and limits of the combination of linear ion trap with orbitrap technology to detect and identify metabolites in environmental water samples, SGMS annual meeting, October 2006, Beatenberg, Switzerland.
 23. Hollender J., H. Singer, F. Fenner. Combination of linear ion trap with orbitrap technology to detect and identify metabolites in environmental samples, Invited lecture at the international workshop Liquid Chromatographie Tandem Mass Spectrometry: Screening and Trace Level Quantitation in Environ. Food Samples. October 2006, Barcelona, Spain
 22. Hollender J. Emerging organic contaminants; Water reuse - Eu project RECLAIM, CWQRC-Eawag-CSIRO Workshop, Curtin University, Perth, 24.-2-8.02. 2006, Perth, Australia.
 21. Hollender J. 2006. Relevance of metabolites in environmental research, Invited lecture at Kolloquium of the Chemical Faculty, ETH Zürich, January 2006, Zürich, Switzerland
 20. Hollender J., A.-K. Reineke, M. Mundt. Fate of NSO heterocycles at contaminated sites – biodegradation or dilution? Eighth International In Situ and On-Site Bioremediation Batelle Symposium, 06-09.06. 2005, Baltimore, USA.

Teaching

Lectures

- "Basics of Environmental Chemistry and Toxicology", Chemical faculty, ETH Zürich, since FS 2008 each fall semester (actually together with Thomas Hofstetter & Christa McArdell)
- „Environmental hygiene - for students of the faculties natural science, engineering and medicine“ Part I and II, Medical faculty of the RWTH Aachen, each semester WS 1996 - SS 2005 (together with Wolfgang Dott & Adolf Eisenträger)
- "Environmental chemistry/ environmental analytical chemistry", lecture and seminar for master students, Natural Science faculty of the RWTH Aachen, WS 2003
- „Chromatographic methods“ lecture for junior scientists of the Interdisciplinary center of clinical research of the RWTH Aachen, one day block course, WS 1996
- Organisation and participation in the lecture series „Interdisciplinary strategies for environmental protection“ for the graduate college AGEESA, SS 2003 - SS 2005

Seminars and excursions

- Term paper course: training of critical evaluation of research subjects and summarization of research subjects in a scientific paper, Master Environmental Sciences, ETH, since FS 2007 several times tutor of a student
- Seminar to the lecture „Environmental hygiene - for students of the faculties natural science, engineering and medicine“, Part I and II, Medical faculty of the RWTH Aachen, since WS 1996 – 2005 (together with Wolfgang Dott & Adolf Eisenträger)
- Seminar to the „Ecological course, branch hygiene, environmental and industrial medicine“, Medical faculty of the RWTH Aachen, block course at 3 days, WS 1994
- Excursions to „Ecological course, branch hygiene and environmental medicine“, and the lecture „Environmental hygiene - for students of the faculties natural science, engineering and medicine“, Medical faculty of the RWTH Aachen, 2 times per semester, WS 1996- 1998
- Organisation of the joint institute colloquium of the Institute of Industrial Medicine and the Institute of Hygiene and Environmental Medicine, SS 2003 and WS 2003

Practical courses

- Master Course "Analysis of organic pollutants", Environmental Sciences, ETH Zürich, since 2007 each spring semester, main responsible person, together with PhD students, postdoctoral scientists and Heinz Singer of the department Environmental Chemistry
- Bachelor Course "Systemanalyse", Environmental Sciences, ETH Zürich, 2008-2014, each spring semester, responsible for chemical part, together with PhD students of Eawag
- Block course to „Ecological course, branch hygiene and environmental medicine“, Medical faculty of the RWTH Aachen, WS 1994 – 1998 and WS 2003 - 2005
- Block course „Environmental hygiene - microbial, chemical and toxicological methods“ for students of the faculties natural science, engineering and medicine, Medical faculty of the RWTH Aachen, WS 1996 – 2005, responsible for specific experiments

Supervision of diploma, master and PhD students

Diploma, bachelor and master theses

- About 40 bachelor and master theses of environmental scientists and chemists at the ETH Zürich, since 2006.
- About 20 diploma theses of chemists, biologists and geologists as well as magister theses of the additional study course “Environmental Sciences” at the Institute of Hygiene and Environmental Medicine of the RWTH Aachen, 1994 - 2005
- 3 Diploma theses of chemists, biologists and environmental engineers at the department of Hygiene of the TU Berlin, 1991-1994

Supervised PhD theses

33. Identification of Pharmaceutical and Synthetic Antioxidant Metabolite by Suspect and Non-target Screening in wastewater treatment plants and their Abatement during Wastewater Treatment, Corina Meyer (in progress), ETH Zürich
32. Online Biomonitoring on Wastewater Treatment Plants: Surveillance of treated wastewater with organisms of different trophic levels, Ali Kizgin (in progress), ETH Zürich (together with Eberhard Morgenroth, Miriam Langer, Cornelia Kienle)
31. Pollutant dynamics in karstic hydrogeological settings, Johannes Schorr (in progress), ETH Zürich
30. Bioaccumulation and biotransformation processes of polar organic pollutants in aquatic invertebrates: Linking exposure and effects, Johannes Raths (in progress), ETH Zürich
29. Bioaccumulation of ionizable organic chemicals, Fabian Balk (in progress), EPF Lausanne (together with Kristin Schirmer)
28. Micropollutant Distribution Dynamics in a Small Creek: From Water to Aquatic Invertebrates, Benedikt Lauper (in progress), ETH Zürich
27. Occurrence and relevance of estrogens from agriculture in the aquatic environment, Daniela Rechsteiner (2020), ETH Zürich (together with Thomas Bucheli)
26. Systematic assessment of the phytotoxins potential as aquatic micropollutants, Barbara Günhardt (2020), ETH Zürich (together with Thomas Bucheli)
25. Isolating Anthropogenic Signals in Groundwater with High Resolution Mass Spectrometry by Eliminating Natural Organic Matter, Karin Kiefer (2020), ETH Zürich
24. Tracing biotransformation in the hyporheic zone with the use of passive sampling and high resolution mass spectrometry, Jonas Mechelke (2019), ETH Zürich
23. Risk assessment of micropollutants in wastewater-impacted streams: combining chemical exposure, biological effects and bioaccumulation, Nicole Munz (2018), ETH Zürich.
22. The role of biotransformation on the toxicokinetics of fungicides in aquatic invertebrates Andrea Rösch (2017), ETH Zürich.
21. On Biotransformation of polar organic micropollutants in phytoplankton, Michael Stravs (2017), ETH Zürich.
20. Development of a difference analysis for LC-MS/MS data to identify polar transformation products along chains of water treatment processes, Jennifer Schollée (2016), ETH Zürich.

19. Mining of High-Resolution mass Spectrometry Data to monitor organic pollutant dynamics in aquatic systems, Martin Loos (2015), ETH Zürich (together with H. Singer).
18. Addressing blind spots in the assessment of pesticides in surface waters: A complete screening using trace-level mass spectrometry techniques and complementary sampling strategies, Christoph Moschet (2014), ETH Zürich.
17. Temporal records of organic contaminants in lake sediments, their bioconcentration and effect on *Daphnia* resting eggs, Aurea Chiaia-Hernandez (2013), ETH Zürich.
16. Fate of polar organic micropollutants during riverbank filtration: Insights from complementary analytical techniques, Sebastian Huntscha (2013), ETH Zürich.
15. Nonextractable residues of sulfonamide antimicrobials in soil – formation mechanisms with organic matter and stability, Anna Gulkowska (2011), ETH Zürich (together with Dr. R. Schwarzenbach and Dr. M. Krauss).
14. Transformation products of organic micropollutants: development and evaluation of methods for assessing their exposure in the aquatic environment, Susanne Kern (2010), ETH Zürich (together with Prof. R. Schwarzenbach and Dr. K. Fenner).
13. Toxicity of diazinon in *Daphnia magna* - a mechanistic effect model based on time-resolved quantification of bioconcentration, biotransformation, and enzyme inhibition, Andreas Kretschmann (2010), ETH Zürich (together with Prof. Dr. B. Escher).
12. Bioavailability of sulfonamide antimicrobials in soil - dominant sorption mechanisms and effect-based reaction in bacteria, Merle Richter (2009), ETH Zürich (together with Prof. R. Schwarzenbach).
11. Cyclostatics in the aquatic environment: analysis, occurrence, and possibilities for removal, Lubomira Kovalova (2009), RWTH Aachen.
10. Heterocyclic compounds in tar oil contaminated groundwater - occurrence, fate and indications for natural attenuation, Anne-Kirsten Reineke (2008) RWTH Aachen.
9. Characterisation of the fouling processes of membranes in the wastewater treatment process, Djamila Al-Halbouni (2008) RWTH Aachen.
8. Metabolism of natural and synthetic steroid hormones under anaerobic conditions, Michael Fahrbach (2006) RWTH Aachen.
7. Chemical analytical investigations of the allergenic potential of terpenes, Mike Duisken (2005) RWTH Aachen.
6. Elimination of natural and synthetic steroid hormones in the sewage treatment process - investigation of the membrane filtration and the biological degradation, Stefanie Weber (2004) RWTH Aachen.
5. Development of sensitive chemical analytical methods for the environmental and biological monitoring of monoterpenes, Frank Sandner (2003) RWTH Aachen.
4. Genotoxicity testing of solid biomaterials - optimization of biological methods by use of reference materials, Boris Müller (2002) RWTH Aachen (together with Prof. Dr. W. Dott).
3. Development of laboratory methods for the prediction of the microbial potential of contaminated groundwater and soil samples, Katrin Althoff (2002) RWTH Aachen (together with Prof. Dr. W. Dott).
2. Supercritical fluid extraction of PAH contaminated soils with modifiers and derivatizing reagents for the detection of analyte-matrix-interactions, Christoph Lutermann (1999) RWTH Aachen (together with Prof. Dr. W. Dott).

1. Dynamic of the phosphate and carbon storage during the biological phosphate elimination in a continuous fermenter with internal biomass retention, Liane Kornberger (1999) RWTH Aachen (together with Prof. Dr. W. Dott).

Research Grants

- Partnership for chemical risk assessment, State Secretariat for Education, Research and Innovation SERI, 2022-2028, (ca. 660'000 €)
- EXPECTmine, Mining toxicity and HRMS data for linking exposure to effect, Swiss Data Science Center, 2022-2024, (390'000 CHF)
- Nationale Grundwasserbeobachtung NAQUA: Abklärung Analytik neue Pflanzenschutzmittelmetaboliten, FOEN Switzerland (79'164 CHF)
- Marie Curie OzoToxID - Identifying genotoxic byproducts and their origin during ozonation of wastewater for postdoctoral scientist Tarek Manasfi, 2021-2022 (203'000 €)
- Nationale Grundwasserbeobachtung NAQUA: Pilotstudie Pflanzenschutzmittel-Rückstände im Karst, 2020-2024, FOEN Switzerland (498'300CHF)
- Bioaccumulation of organic pollutants in aquatic organisms: linking exposure and effects, 2019-2023, SNF (919'968 CHF)
- Bioakkumulation von ionischen Stoffen im Rahmen der Umweltrisikobewertung, 2018-2022, together with Kristin Schirmer, FOEN Switzerland (330'000 CHF)
- Nationale Grundwasserbeobachtung NAQUA: Pilotstudie Non-target Screening, 2018-2020, together with Heinz Singer, FOEN Switzerland (210'000 CHF)
- Target und Non-target-Screening von organischen Spurenstoffen inklusiv Pflanzenschutzmittelabbauprodukte in Schweizer Grundwässern, 2017, together with Heinz Singer, FOEN Switzerland (100'000 CHF)
- Investigations on the bioconcentration of xenobiotics in the freshwater amphipod *Hyalella azteca* and inter-laboratory comparison of a new BCF test protocol. 2017-2018, together with Christian Schlechtriem, Fraunhofer IME und Kai-Uwe Goss, UFZ, The European

Chemical Industry Council (30'000 € for Eawag).

- Evaluation von Verfahren zur Entfernung von Mikroverunreinigungen aus dem Abwasser mittels suspect und non-target screening - Ozon, Aktivkohle und Kombiverfahren, 2016-2020, FOEN Switzerland, together with Christa McArdell (430'000 CHF)
- Marie Curie EXPOZOL - Exposure of aquatic ecosystems to antifungal azoles : assessment of occurrence and fate in sediment, water and aquatic organisms for postdoctoral scientist Nicolas Creusot, 2017-2019 (200'000 €)
- Bioaccumulation and biotransformation of organic xenobiotics in aquatic organisms, 2016-2019, SNF, (600'000 CHF)
- European initial training network hypoTRAIN, A training network for enhancing the understanding of complex physical, chemical and biological process interactions in hyporheic zones for 3 PhD students, together with Mario Schirmer and Rolf Kipfer, 2015-2018
- Statistische Analyse von HPLC-HRMS-Daten für die umfassendere Charakterisierung der Ozonung und nachfolgenden biologischen Nachbehandlungen, 2015-2016, FOEN Switzerland (87'000 CHF)
- Früherkennung von organischen Schadstoffen in der Umwelt (FROSCH), (together with T. Bucheli, Agroscope and M. Scheringer, ETH Zurich) 2015-2018, (130'000 CHF)
- EU project Solutions - Solutions for present and future emerging pollutants in land and water resources management“ workpackage leader case study Rhine, 2013 – Sep 2018, (350,000€)
- Marie Curie ContaminantID – Integrated Computational Techniques for Non-Target Screening of Environmental Contaminants using High Resolution Mass Spectrometry for postdoctoral scientist Emma Schymanski, (174,000 €), 2014-2016
- European initial training network EDA-EMERGE Innovative biodiagnosis meets chemical structure elucidation- novel tools in effect directed analysis to support the identification and monitoring of emerging toxicants on a European scale, for two PhD students, together with Kristin Schirmer, 2011-2015
- EU project DEMEAU Demonstration of promising technologies to address emerging pollutants inwater and waste water, together with Christa McArdell, Urs von Gunten and Hansruedi Siegrist, 1 postdoc, 2012-2015, (440,000 €)
- SNF project “Metabolism of polar organic xenobiotics in aquatic invertebrates: importance and contribution to environmental fate, together with Francesco Pomati, 2 PhD students, 2013-2015 (375,000 CHF)
- Regionale Wasserversorgung Basel-Landschaft 21, Basel Land project: Leader of chemical investigation module, 2013-2016, 1 postdoc
- Bafu project “Suspect screening of sediments” 2012-2013, FOEN Switzerland (80'000 CHF)
- Investigations on the exposure situation of Swiss waterbodies with insecticides and fungicides, together with H. Singer and C. Stamm, 4/2011-10/2014, FOEN Switzerland, 1 PhD student (230'000 CHF)
- NFP 65 project “Biotransformation of fullerenes and carbon nanotubes” (BioCarb), 2011-2013, together with PI Hans-Peter Kohler, 1 postdoc
- Exposition von Valsartan und seinen Transformationsprodukte, together with H. Singer

- and Dr. K. Fenner, 2010, Novartis International AG, (40,000 CHF)
- The fate and toxicity of antibiotics and their transformation products in aquatic environments, ETH Strategic Korean-Swiss Cooperative Program, together with Prof. Dr. Sang Don Kim, Gwangju Institute of Science and Technology, 2011 (18,000 CHF)
 - Investigations on the exposure situation of Swiss waterbodies with insecticides and fungicides, 2011-2014, FOEN Switzerland (245,000 CHF)
 - Tantalos, Survey of polar organic micropollutants at the international Rhine station in Basel, together with PI H. Singer, 2009-2012, FOEN Switzerland, (~392,000 CHF)
 - Application of powdered activated carbon for elimination of micropollutants from the wastewater, together with PI Prof. Dr. H. Siegrist, 2008-2010, FOEN Switzerland, (Uchem part 80,000 CHF)
 - Sino Swiss Science and Technology Cooperation exchange grant "Development of a passive sampler based on ionic liquids for PFCs in water: sampler design and post-treatment method after sampling" for Dr. Lei Wang of the Nankai University, Tianji, Swiss State Secretariat for Education and Research 2010 (12,600 CHF)
 - The impact of abiotic factors on hybrid Daphnia populations across the Alps: are pollution effects irreversible? together with PI Dr. P. Spaak, 2009-2011, SNF (~300,000 CHF).
 - Development of Passive Sampling for Water Quality Assessment and for Simulating the Bioconcentration in Aquatic Organism Under Pulsed Exposure Conditions, 2009-2010, SNF (~376,000 CHF).
 - Experimental evaluation and further development of a computer-based biodegradation pathway prediction system for chemical pollutants, together with PI Dr. K. Fenner and Dr. H.-P. Kohler, Eawag, 2008-2010, Eawag, (~182,000 CHF).
 - Influence of the river revitalisation on the behaviour of organic micropollutants in the Thur valley within CCES project Record, 2008-2012, FOEN Switzerland, (~350,000 CHF).
 - EvoChemTox, Does microevolution due to chemical contaminants, influence the biodiversity of Greifensee? together with PI Dr. P. Spaak, Eawag, 2007-2009 (~30,000 CHF).
 - Combined KoMet "Combined modeling and measurement approach for the identification of relevant transformation products in water resources", together with PI Dr. K. Fenner, Eawag/ETH and Prof. Beate Escher, 2006- 2009, Foen Switzerland, (~550,000 CHF).
 - Screening organic pollutants in surface and ground water using HRGC-MS, together with H. Singer, Eawag, Uchem, 2006-2008, FOEN Switzerland, (~130,000 CHF).
 - Formation of Nonextractable Residues of Sulfonamides with Soil Organic Matter-Mechanisms and Detection by High Resolution Tandem Mass Spectrometry, SNF (together with Dr. M. Krauss, Eawag, Uchem), 2007-2011, SNF (~215,000 CHF).
 - Anaerobic degradation of steroid hormones by novel denitrifying bacteria, SNF, together with PI Dr. H.-P. Kohler, Umik, Eawag, 2007-2008, SNF (~131,000 CHF).
 - Strategy MicroPoll, Module control of success, Module pilot experiment, Module Swiss national material flux model, evaluation concept micropollutants, FOEN Switzerland, 2006 - 2010, (~455,000 CHF).
 - Integration of internal metabolites in the effect modeling of insecticides in Daphnia Magna, together with Prof. Dr. B. Escher, Eawag, Utox, Eawag, 2006-2010, (~190,000 CHF).

- Analysis of organic compounds and specific studies on removal and fate of organic compounds within the EU project Reclaim "Water reclamation technologies for safe artificial groundwater recharge", 2005-2008, (~130,000 €).
- ITN AQUABASE "Organic micropollutants in the aquatic environment - interdisciplinary concepts for assessment and removal" of the 6. framework of the EU, initiated together with the Biology, Chemical Engineering and Civil Engineering of the RWTH Aachen, 2004 – 2008, (~150,000 €).
- Heterocyclic aromatic compounds and other tar oil typical contaminants in groundwater - identification, quantification and metabolism, BMBF (German Federal Ministry of Education and Research) project in program "KORA", 2003-2007, (~221,000 €).
- Definition of key objectives for water reuse concepts, project within the EU project Aquarec „Integrated Concepts for Reuse of Upgraded Wastewater“, 2003-2005, (~117,000 €).
- Strategies concerning fouling control of membrane bioreactors in the sewage treatment process, project together with the Institute of Chemical Engineering and Civil Engineering of the RWTH Aachen, supported by the Ministry of the Environment and Conservation, Agriculture and Consumer Protection of the German State of North Rhine-Westphalia, 2004-2007, (~132,000 €).
- Chemical and biological investigations of the allergenic potential of terpenes, terpene metabolites and terpene oxidation products, DFG (German research foundation) project, (together with Prof. Dr. B. Blömeke, University of Trier), 2002 – 2005, (~146,000 €).
- Metabolism of selected steroid hormones in activated sludge under different redox conditions, project within the DFG graduate college AGEESA, 2002–2005, (~50,000 €).
- Soil and groundwater protection at the airport München and affected area around the airport, project supported by the industry, together with Prof. Dr. W. Dott, 2000 – 2002, (~179,000 €).
- Investigation of the elimination of natural and synthetic contraceptives in sewage treatment pants with membrane filtration, project within the DFG graduate college AGEESA, 1999 –2002, (~50,000 €).
- Microbial degradation potential in groundwater depending on electron acceptor as well on natural carbon, nitrogen and phosphorous supply, project in the DFG priority program "Geochemical processes with long-term effects in anthropogenically-affected seepage- and groundwater", together with Prof. Dr. W. Dott, 1997 – 2002, (~187,000 €).
- Investigation of genotoxic properties of solid biomaterials by chemical and biological methods, BMBF project in the interdisciplinary clinical research center „Biomat“ of the medical faculty of the RWTH Aachen, 1998 –2001, (~100,000 €).
- Transmission of genotoxic properties of solid materials (biomaterials) to fluid in vitro-test systems for the investigation of genotoxic effects, BMBF project in the clinical research center „Biomat“ of the medical faculty of the RWTH Aachen, 1998–1999, (~120,000 €).
- Regulation of the co-metabolic degradation of chlorinated and methylated phenols by mixed and pure cultures, DFG, together with Prof. Dr. W. Dott, 1995 – 1996, (~227,000 €).
- Biochemical and biomolecular investigations of the biological phosphate elimination in wastewater treatment plants, DFG, together with Prof. Dr. W. Dott, 1995 –1998, (~283,000 €).
